YJT ja ODF 3x8 / 4x6

## ODF 3x8 / 4x6

Valmistamme TT-192 (3x8) ja TT-120(4x6) telineisiin valmiskoteloita sekä hännillä että kaapeleilla. SC-liittimillä yhden kotelon maksimi liitinmäärä on 24kpl ja LC-liittimellä 48kpl. Näihin koteloihin voidaan myös asentaa jakajia.

LC-liittintä voi käyttää TT-192 telineessä vain omalla etulevyllä (ODF 3x16). Tämä johtuu siitä, että LC adapterien pitää olla hieman erillään toisistaan, jotta LC kytkentäkaapelit pystytään kytkemään. LC-liittimien kiinnitysmekanismit eivät mahtuisi paikoilleen, jos adapterit olisivat kiinni toisissaan.

ODF 3x8 ja 4x6 tuotteissa käytetään samoja kaapeleita kuin liitinlevyissä. Varastotuotteiden sähkönumerot löytyvät viereisistä taulukoista.
